How to be a Sphere Champion

Acknowledgements

The first iteration of this one-hour e-learning module was created in 2016 by Sphere, the Humanitarian Leadership Academy and InfoPro Learning. It was originally called *Sphere for Managers: How to Champion the Sphere approach in your Organisation*.

In 2018, the course was refreshed, repurposed and renamed as *How to be a Sphere Champion*. Although the target audience is now much broader, much of the content and many of the key messages remain the same. While you may need management responsibility to fully embed Sphere into an organisation,

anyone can be a Sphere Champion through their own actions and by encouraging those with power to act.
